- Time MANagement

PROFILE

I'm a fresher frontend developer. I know basic HTML, CSS, JavaScript, and React. I have built some small projects that are responsive and user-friendly. I enjoy learning new things and improving my coding skills. I'm also comfortable working with basic tools like Git and GitHub. I'm looking for a good opportunity where I can grow, work with a team, and gain real experience. I'm ready to give my best and learn from every task.

PROJECTS

AJIO WEB

- Develop and execute comprehensive marketing strategies and campaigns that align with the company's goals and objectives.
- Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.
- Monitor brand consistency across marketing channels and materials.

REACT MINI WEB

- Developed a fully responsive and visually appealing mini website using HTML, CSS, React, and React Router DOM, focusing on clean layout and smooth navigation.
- Integrated mock APIs using Axios and JSON-Server to simulate real-world data fetching and improve frontend development experience.
- Followed modern UI/UX principles to create a better user experience with easy navigation, accessibility, and mobile-friendly design.

SHARK TANK WEB

- Built a Shark Tank-inspired web app using HTML, CSS, JavaScript, and json-server. It displays startup ideas and investor profiles with a clean, responsive design.
- Used technologies like HTML, CSS, JavaScript, and json-server to create and manage mock data for startups and investors.
- Key features include dynamic content rendering, responsive design for all devices, and a mobile-friendly user interface.
