- Time Management

PROFILE

I'm a fresher frontend developer. I know basic HTML, CSS, JavaScript, and React. I have built some small projects that are responsive and user-friendly. I enjoy learning new things and improving my coding skills. I'm also comfortable working with basic tools like Git and GitHub. I'm looking for a good opportunity where I can grow, work with a team, and gain real experience. I'm ready to give my best and learn from every task.

PROJECTS

AJIO WEB 🔗

- Created an e-commerce website like Ajio using React.js, with pages like Home, Men's, Product Details, and cart .
- Added features like Add to Cart, Remove from Cart, Checkout, and Product Filters, all with smooth navigation.
- Made the website responsive and user-friendly, and connected it with fake store API to show real product data.

Westside - E-commerce Website 🔗

- Built a Westside-like e-commerce website using React.js, showing homepage, product listings, and cart features.
- Used React Router for smooth navigation between pages like Home, Products, and Cart.
- Designed a fully responsive UI with clean layout and smooth product card hover effects for a better user experience.

Paul-Smith Web 🔗

- Built a Paul Smith clone e-commerce website using HTML, CSS, and JavaScript, with homepage and product listing.
- Added "Add to Cart" feature with localStorage to save cart items, and designed a clean, modern UI.
- Made the website responsive and user-friendly, working well on both mobile and desktop screens.
